

Sonoma Valley Worm Farm

Aerated Composting System

Our three-bin Aerated Composting System is designed to be a perfect companion to our VermiComposter CF 20 or CF 40. The three-bin system is engineered using forced air technology, which results in consistently high quality compost with a low labor input. Our molded bins are very easy to set up and clean. We have designed them to help to insure your success.

Features

- Professionally engineered forced air design
- Insulated for optimum temperature
- Fan, timer, thermometer all included
- Industrial grade components used throughout
- Ideal for composting at a 4 to 7 horse facility
- Fully accessible components for ease of cleaning
- Includes operator manual and video

Specifications

System capacity.....	43 cubic feet / 1.2 cubic meters per bin
Bin Material.....	UV stabilized high density polyethylene
Forced Air Volume.....	447 cubic feet per min. / 12.65 cubic meters per min.
Valves/Fittings.....	Banjo glass-filled polypropylene
Electrical.....	110V/220V with solar option
Air Delivery.....	Industrial grade blower with variable timer
Weight.....	200 lbs / 90 kg
Dimensions.....	48 x 66 x 35 in. per bin 122 x 168 x 89 cm per bin
